Type 1 – part of the BODY Triad

For Enneagram Type 1, working Step One means confronting their deep desire to be good, perfect, and in control, which often extends into their relationship with food. Type 1s may use strict self-discipline or indulge in compulsive eating to cope with the frustration of not living up to their own high standards.

4. Surrender the Fear of Being Imperfect:

Type 1s are often driven by a deep fear of being defective or wrong. Food may have been used to suppress this fear, but in Step One, they must face it head-on.

Week 4 Reflection question:

"How has my fear of making mistakes or not being perfect contributed to my unhealthy relationship with food?"

Summary: Type 1s work Step One by admitting their powerlessness over the perfectionism that drives their relationship w/ food. By letting go of the need for rigid control and accepting that they are not defective, they can begin to find balance and healing.

We admitted we were powerless over ____ that our lives had become unmanageable

What may make Step 1 difficult for MY Type?

| Typ e | Passion | Typ e | Passion |
|----------|--|----------|---|
| 1 | I need to Keep the perfect illusion going | | I cannot trust something I can't see |
| 2 | I Seek my "self" in others- to be loved. How could someone so giving be an addict? | 7 | "Managing" limits my options and it might not be fun. |
| 3 | I seek my "self" in others – to be admired- Isn't being successful proof that I'm not an addict? | 8 | If I'm not in charge. Who else will be in charge? If I AM in charge- I will manage! |
| 4 | I feel intense emotions that seem to take over- that IS unmanageable! | | This feels uncomfortable. I'd rather be numb & comfortable. |

5. Knowledge is power. If I know enough I am never powerless.

This is a summary of a potential roadblock in recovery. Try it on for fit....no worries if it doesn't quite fit- there's work ahead ©
