

Type 3 - a part of the HEART Triad

For Enneagram Type 3, working Step One means facing the ways in which their drive for success, recognition, and achievement has impacted their relationship with food. Type 3s often use food either to fuel their ambition or as a reward after achieving their goals.

4. Surrender the Fear of Being Seen as a Failure:

Type 3s fear failure above all. In Step One, they must surrender the belief that they need to be successful or flawless to be loved or respected. Admitting their powerlessness over food is an important step toward releasing this fear.

Week 4 Reflection question:

“How has my fear of failure or not being seen as successful contributed to my food struggles, and how can I begin to let go of that fear?”

Summary: Type 3s work Step One by recognizing how their drive for success and image has led to an unmanageable relationship with food. By admitting powerlessness over their need to achieve and learning to embrace authenticity, they can find healing.

What may make Step 1 difficult for MY Type?

Type	Passion	Type	Passion
1	I need to Keep the perfect illusion going	6	I cannot trust something I can't see
2	I Seek my "self" in others- to be loved. How could someone so giving be an addict?	7	"Managing" limits my options and it might not be fun.
3	I seek my "self" in others – to be admired- Isn't being successful proof that I'm not an addict?	8	If I'm not in charge. Who else will be in charge? If I AM in charge- I will manage!
4	I feel intense emotions that seem to take over- that IS unmanageable!	9	This feels uncomfortable. I'd rather be numb & comfortable.
