

Type 9 – part of the BODY Triad

For Enneagram Type 9, working Step One in means acknowledging how their tendency to avoid conflict, disengage from life, and seek comfort has affected their relationship with food. Type 9s may use food to numb out, avoid emotional discomfort, or maintain a sense of inner peace.

4. Surrender the Fear of Discomfort:

Type 9s often fear discomfort and may turn to food as a way to maintain inner harmony. Admitting powerlessness means surrendering the belief that food can keep them comfortable and safe from the challenges of life.

Week 4 Reflection question:

“How have I used food to avoid discomfort, and how has that made my life unmanageable?”

Summary: Type 9s work Step One by admitting their powerlessness over their tendency to avoid conflict and discomfort through food. By learning to engage with their emotions and trust the recovery process, they can find lasting inner peace and healing.

*We admitted we were powerless over _____
that our lives had become unmanageable*

What may make Step 1 difficult for MY Type?

Type	Passion	Type	Passion
1	I need to Keep the perfect illusion going	6	I cannot trust something I can't see
2	I Seek my "self" in others- to be loved. How could someone so giving be an addict?	7	"Managing" limits my options and it might not be fun.
3	I seek my "self" in others – to be admired- Isn't being successful proof that I'm not an addict?	8	If I'm not in charge. Who else will be in charge? If I AM in charge- I will manage!
4	I feel intense emotions that seem to take over- that IS unmanageable!	9	This feels uncomfortable. I'd rather be numb & comfortable.
5.	Knowledge is power. If I know enough I am never powerless.		

This is a summary of a potential roadblock in recovery. Try it on for fit....no worries if it doesn't quite fit- there's work ahead 😊
